SurSol Hand Sanitiser

SurSol is the long-lasting, alcohol-free hand sanitiser spray that effectively kills 99.8% of all germs and known flu viruses.

- | Powerful hand sanitiser that is scientifically proven to kill 99.8% of germs and all known flu viruses
- | Paraben, fragrance and alcohol-free: Safe and gentle for children and those with sensitive skin yet scientifically proven to be powerful at killing germs and viruses
- | The virus killing, water-based formula is cruelty-free, vegan-friendly and works within 15 seconds and it contains Aloe Vera and Chamomile, which moisturises while sanitising
- | Kills germs and protects you and your family – actively killing germs for up to 4 hours
- | Independently tested and proven to kill swine flu, winter flu, bird flu, MRSA, SARS and Norovirus

Suitable for use on the whole family and anyone with sensitive skin, this powerful, water-based spray is alcohol-free yet kills germs and bacteria within seconds. Any bacteria that comes into contact with the skin within four hours of use will also be eradicated. Formulated with active ingredients that comply with the EN 1276 and EN 14476 testing standards, SurSol Alcohol-Free Hand Sanitiser Spray is a powerful formulation designed to eliminate 99.8% of bacteria and viruses. It is vegan-friendly and certified cruelty-free so not only can you help to prevent the spread of illness and protect yourself and your family; you can do so with a clear conscience.

Essential Alcohol Hand Sanitiser

Prevent the spread of bacteria and infections with Essential Alcohol Hand Sanitiser, an alcohol based (minimum 72.5% alcohol content) instant hand sanitiser gel.

Effective and easy to use, Essential Alcohol Hand Sanitiser can be applied to clean, dry hands to help protect from germs.

Ideally placed in receptions or entrances, Essential Alcohol Hand Sanitiser, is perfect for ensuring your high levels of hygiene are maintained.

Ramsol Disinfectant Aerosol

Ramsol Disinfectant Aerosol contains active biocides and is specifically designed for the cleansing and disinfecting of hard and soft surfaces as well as being tested and proven for use on skin.

The Ramsol sanitiser spray is a revolutionary mist spray with fogging technology designed to sanitise and disinfect difficult to reach and intricate areas with full surface coverage.

This product is fast and effective at dealing with an extensive list of bacteria, viruses, fungi and moulds as well as Coronavirus and Type A Influenza viruses such as Swine Flu, Chinese and Japanese Flu strains and SARS.

FFP2 (N95) Surgical Grade Face Masks

FFP2 (N95) Surgical Grade Face Masks are high grade filtering masks that are designed to protect the respiratory system.

3-Ply (Type 1) Face Masks

Our disposable, breathable face masks are comprised of three layers for effective protection and are soft on the skin for added comfort.

Full Face Plastic Visors

Our Full Face Plastic Visors are produced to the exact same specification as used by the NHS. Each visor is manufactured with a latex-free foam headband, anti-mist clear visor screen and an elasticated closure for a snug, comfortable fit.

Personalised visors are also available, contact us for more information.

Social Distancing Tape

Our 48mm x 33m, white laminated Social Distancing Tape is printed yellow/black and is perfect for marking out spaces on flooring in public areas (internal use only), to help keep everyone safe.

Striped, floor marking tape is also available.

Sneeze Screens

Protect yourself and others with our free standing sneeze screens.

Produced using wipeable, easy-to-clean clear plastic, these sneeze screens are perfect for office environments and are available from in the following sizes:

- | 700mm x 600mm – 4 screens per pack
- | 1400mm x 600mm – 2 screens per pack

Employee Protection Shield

These free standing, double wall, cardboard protection shields are 1950 x 645mm with a 500mm wide base.

Employee protection shields are perfect for production lines and areas that are tight on space.

Foot Operated Sanitising Stations

Simple, effective and easy to use; our Foot Operated Sanitising Stations allow for the dispensing of hand sanitiser without the need to touch by hand – reducing the spread of germs, bacteria and infections.

Please note these units are not supplied with soap dispenser bottles. Each station is designed to accommodate dispenser bottles of various sizes (45mm-100mm diameter, 115mm-268mm height including plunger).

Hand Sanitising Stations

Helps to promote staff and visitor hygiene before entering the workplace with our free-standing Hand Sanitising Station.

Produced using EB flute, double wall corrugated our Hand Sanitising Stations are 1420mm x 400mm x 320mm (with a 120mm x 310mm shelf) and are supplied flat packed.

Portawash all-in-one Handwash Stations

Our self-contained units, require no plumbing or electrics and can be installed anywhere. Each product comes with soap, water, paper towel and a bin. Giving you everything you need to maintain hygiene anywhere at any time.

Portawash 5 - wall/door mounted handwash unit

- | Slimline, lightweight aluminium composite construction makes it ideal for the back of vans.
- | Self-contained unit, holds 5 litres of fresh water with an optional attachment to collect up to 5 litres of grey water.
- | Unit includes Soap, Paper towel and bin (with grey water unit).
- | Fully assembled, your unit can be fixed to the rear doors of your van, or to sidewalls/existing racking in the vehicle.
- | Unit comes with one supply of soap.
- | Dimensions 483 x 660 x 148mm (W x H x D)
- | The product comes fully assembled with the consumables as separate components, ready to install.
- | Leadtimes: 2-3 working days
- | We can deliver up to 100 units per day

Portawash all-in-one Handwash Stations

Our self-contained units, require no plumbing or electrics and can be installed anywhere. Each product comes with soap, water, paper towel and a bin. Giving you everything you need to maintain hygiene anywhere at any time.

Portawash 45 - floorstanding handwash unit

- | Slimline and lightweight, ideal for using in vans or trucks or freestanding, taking up minimum floor space.
- | Self-contained unit, holds 45 litres of fresh water, giving 90 x 20 second hand washes with a foot operated tap.
- | Unit includes Soap dispenser, Paper towel and bin.
- | Fully assembled, the unit can be fixed to existing strapping points, or fixed to your van side walls.
- | Durable construction to with-stand heavy use.
- | Dimensions 720 x 1320 x 220mm (W x H x D)
- | The product comes fully assembled with the consumables as separate components, ready to install.
- | Leadtimes: 2-3 working days
- | We can deliver up to 32 units per day

Welfare Testing Station

Designed to enable factories, logistics supply chains and e-commerce companies to test staff for fevers before they enter the workplace

Test staff at a safe distance with screen protection

Very quick and simple to deploy and are also portable. They are designed to be used in conjunction with infrared forehead thermometers.

This is a very simple welfare provision to enable companies who are continuing to operate as key workers to take a precautionary step every day, in taking the temperatures of their staff before they start their shift.

Infrared Forehead Thermometers

Sold separately in single units, infrared forehead thermometers enable the testing of staff or visitors at a safe distance.

Significant changes to body temperature can be an early warning sign of being unwell.

Gloves

A range of disposable gloves offering protection against cross contamination through touch.

Vinyl, Nitrile, Powder Free and Powdered options available (subject to availability) in sizes from Small to Extra Large.

HANDS FREE DOOR

HELP AVOID THE SPREAD OF

Many people are concerned with catching a virus or being exposed to germs. Door handles are among the most germ-infested objects and research shows contamination of just a single doorknob can help spread germs throughout office building, hotels, schools and more facilities within hours. We offer two products to help risk prevention by using our covered arms or feet instead of our bare hands to open and close doors.

Hands Free Door
Opener - Arm

Hands Free Door
Opener - Foot
